## Donna & Bennett's story...

Donna lives in Singapore and has always loved animals but particularly large dogs – 'gentle giants'. So it was no surprise when she decided to get a Newfoundland (Bennett) as a companion to her much loved senior golden retriever, Oscar, and her senior rescue cat Ollie. Oscar had been on Newflands supplements for 3 years, and was doing wonderfully well on them, especially since he was prone to skin conditions.

Bennett came to Donna all the way from France. Unfortunately soon after arriving, he started to experience recurring dry skin from the weather. This concerned Donna who immediately started Bennett on Newflands Hoki Fish Oil. Within a month of supplementing his food with the fish oil, Donna was delighted to find a dramatic improvement to Bennett's coat. After all this time, her 3 furry boys, their skin, their coat, and general well-being are excellent. They are all extremely bright and happy, often receiving compliments as to how gorgeous they look.

With Newflands, you get peace of mind, with the best supplements on the market. Happy, healthy pets, and happy owners.

# Healthy Pets, Happy People
